By purchasing the VIRTUOSO, you are supporting a sustainable future – thank you!

The exterior is made from recycled vegan leather: This means pre and post consumer materials such as trimmings, overstock raw materials and excess inventory are ground into microfibers, mixed with recycled fabrics and then processed to a high-quality vegan leather textile. We use less water and produce less carbon emissions than in traditional leather production, yet providing the same look and feel. In addition, the lining and the zippers are made from recycled PET plastic to lessen our environmental impact. All carbon emissions caused are compensated with Climate Partner, granting this bag the label Carbon neutral product.

购买 VIRTUOSO，为可持续未来尽一份力——我们向您表示感谢！

产品外部采用可回收人造皮革材料：我们将消费前和消费后材料（如边角料、积存原材料与多余库存）研磨成超细纤维，与可回收织物进行混合，然后将其加工成高品质人造皮革织物。与传统皮革生产相比，我们的生产过程用水量更少，碳排放也更少，但却提供了具有相同外观和触感的产品。此外，内衬以及拉链均由回收 PET 塑料制成，从而减少对环境的影响。所有碳排放均通过 Climate Partner 进行补偿，因此本款手提包为碳中和产品。

CARE INSTRUCTIONS

Only the highest quality materials were used for the VIRTUOSO, which makes it easy to care for and durable. We want your bag to last a long time so please keep the following in mind: The recycled vegan leather is water repellent but should not be submerged in water. Don't try to iron the VIRTUOSO and don't attempt to put it into the washer, bleach it, or dry clean it. To clean the VIRTUOSO of dust or stains all you need is a simple damp cloth.
