

背景探秘

Coffee Watch 是世界上第一款采用回收咖啡渣制成的腕表，在很多方面都独树一帜。

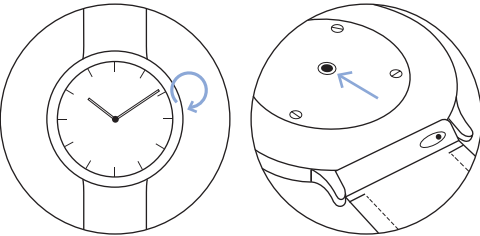

您的新腕表已经名动一时：我们携手创新企业 Kaffeeform，从咖啡馆和咖啡烘焙工坊回收纯正的咖啡渣，然后利用创新配方，将其加工成一种坚固的生物基材料，即用于制造 Coffee Watch 表壳的材料。这种材料色彩和结构十分独特，具有极高辨识度，甚至可以闻到其所散发的清新淡雅咖啡香气在空气中萦绕！

此外，我们还做出品质承诺：这款 Coffee Watch 仅由我们的甄选合作伙伴在德国制造。不言而喻，我们始终坚持采用优质材料。

设置时间

设置好腕表时间，就能精准掌握下一次咖啡小憩的时间。

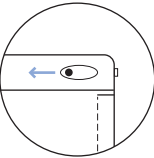

使用尖头工具，按压表壳底部的小孔。保持长按不动，腕表指针会迅速转动。仅简短按一下，腕表指针会向前略微移动。

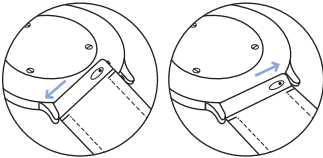

更换表带

您可以根据个人品味更换表带，为自己定制个性化 Coffee Watch 外观。

1. 拉动连接销

2. 更换表带

3. 将连接销的第一部分插入表壳的小孔中。将连接销向内拉，让连接销的第二部分插入另一个孔中。如有必要，需要动手将连接销向外推回。

保养说明

CoffeeWatch承载珍贵细腻情感。因此，也请您珍爱它。

Kaffeeform 表壳材料质地非常坚固。矿物玻璃表镜覆以纤薄蓝宝石涂层，具有出色的耐刮擦性能。腕表防水性能为 50 米，可以在各种溅水情况下保护腕表。但是，请在潜水、从事园艺或者体育运动前，将腕表取下。

腕表电池用罄时，可寻求珠宝商或钟表商帮助。专业人士能迅速为您更换新电池。

有机皮革表带的外观出现轻微变化属于正常现象，请知悉。随着时间流逝，皮革会呈现迷人的古雅光泽。可使用略微湿润的软布轻松擦除皮革上的污渍和灰尘。但请确保不要让皮革过度受潮。

不锈钢和纯素材质皮革表带适于在潮湿环境中使用。

A. 咖啡醇香，如影随形

B. 始终精准掌控时间

C. 随心更换外观

D. 用心呵护

质量保证

从产品交付之日起, 您可享受由我们提供, 长达24个月的质保服务。此质保服务适用于所有材料和制造缺陷。如需报修索赔, 请联系我们的顾客服务团队。我们将尽快处理您的请求。

回收和处置

这款腕表的使用寿命结束后应该如何处置?

废旧电器和电池必须由专门的回收站进行回收。请确保以环保的方式处置和回收所有零部件。感谢您心系环保!

说明

达成完美关系的4个步骤

GET TO KNOW The Coffee Watch, the world's first watch made from recycled coffee, unique in many respects.

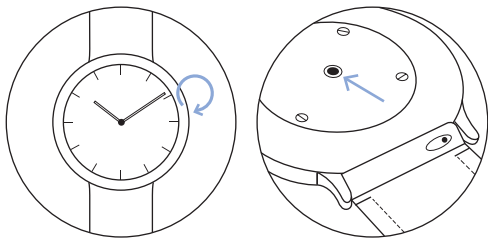

Your new watch is already a small sensation: together with the innovative company Kaffeeform, real coffee grounds were collected from cafés and roasteries in Berlin and then processed, using an innovative formula to create a robust, bio-based material – and this is what the housing of the Coffee Watch consists of. You can recognize this by the color, the special structure of the material and maybe you can even smell it: a fine coffee scent will linger for some time!

In addition, there is our quality promise: The Coffee Watch is made in Germany and is only manufactured with selected partners. It goes without saying that only high-quality materials are used.

A. **WITH FLAVOR TO ENJOY**

SET YOUR TIME If the setting is right, you can see exactly when it's time for the next coffee break.

Using a pointed object, press into the hollow in the bottom of the housing. If you hold down the position, the hands start to rotate faster. If you only press briefly, you let it jump forward a little bit.

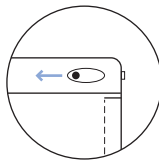

B. **ALWAYS AT THE RIGHT TIME**

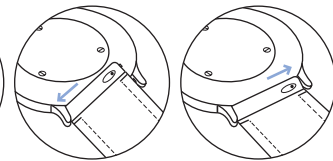

**SWAP
THE STRAP**

You can customize the Coffee Watch with the interchangeable straps according to your taste.

1. Pull the pin

2. Change the strap

3. Insert the first part of the pin into one of the holes on the housing. Pull the pin back inwards and let the second part of the pin drive into the other hole. If necessary, you then have to manually push the pin back outwards.

C. **IN MANY VARIANTS**

**CARE
INSTRUCTIONS**

A lot of love and care goes into the Coffee Watch. Therefore, treat it well!

The case material of Kaffeeform is extremely robust. The mineral glass reinforced with a thin sapphire layer is also very resistant to scratches. With a water resistance of 5 ATM, the watch is also protected from water splashes of all kinds. However, you should take off your watch before diving, gardening, or doing sports. When the battery runs out of power, it's a case for the jeweler or watchmaker. The professional will replace the battery in no time at all. You should also know that small changes in the organic leather bracelets are quite normal. Over time, a fine patina will form. You can remove stains, dust and dirt with a slightly damp cloth. However, do make sure that the leather is not too wet. The stainless steel or vegan leather straps can easily tolerate the moisture.

D. **IN THE BEST HANDS**
