

# 保养说明

您选择了我们的一款彩色表带。这是明智的选择！因为我们的皮革没有使用任何化学品加工，而是完全植物鞣制，赋予表带自然的质感，亦为您和环境带来很多好处。但是，如果经染色处理的天然皮革过度受潮，就可能出现掉色情况。

因此，如果遇到滂沱大雨，或进行大汗淋漓的体育活动，又或者淋浴时不慎忘记取下腕表，您便应该取下表带，将其晾干，并避免接触衣物。即使皮革表带渗色至皮肤上，您也尽可以放心，因为我们采用完全安全的染料，只需少许肥皂和水就可以清洗干净。

## Care instructions

You've opted for one of our colorful straps. Good choice! Rather than maltreated with a hodgepodge of chemicals, our leather is entirely plant-tanned, giving the strap its natural look and offering a lot of benefits for you and the environment. But if dyed natural leather is exposed to excessive moisture, the color may bleed.

So if you find yourself caught in a downpour, are engaged in a sweat-inducing activity, or have accidentally left your watch on in the shower, you should take off the strap, allow it to dry and avoid contact with your clothes. If the color bleeds onto your skin, you can rest assured that we only use entirely safe dyes that can be removed from the skin with a little soap and water.
